Providing personal counseling and services to South East South Dakota

LEAP Institute

LEAP Practitioner Training

Listen * Empathize * Agree * Partner

www.LEAPinstitute.org

The LEAP (Listen-Empathize-Agree-Partner) training programs teach participants a set of evidence-based practices to strengthen mutual respect and trust with the aim of developing effective partnerships among a range of persons in a variety of settings.

The LP-I training helps persons with mental illness that are either non-adherent, or only partially adherent, become fully engaged in treatment and services (medication, psychotherapy, psychosocial programs, peer-support, supervised housing, etc.) and to cooperate with persons who are trying to help them (with accepting treatment and services and/or in law enforcement/corrections settings, with de-escalation and following requests/directions).

June 26, 2015
